# MERZ | PRODUCT OVERVIEW

## EASY DOCUMENTATION ("WHO WRITES, REMAINS")

PC-Documentation software and bar code labels

Tests without documentation cannot ensure legal compliance. Therefore it makes sense to use an automatic system to save the test results. MERZ Barcode Labels and the Database and Remote Control software PMKD 2500 PC-S offer an optimized workflow.

- Reliable test documentation
- Speed up the work
- Easy data storage

## STRONG SERVICE

Training "MERZ TEST TECHNOLOGY"

The MERZ PAT Testers and Test Systems are well known in the Industry, Theatres, TV- and Radio stations, on Construction Sites and in the Facility Management. To make the work most efficient MERZ offers trainings for the users. They learn about the legal basics, test technology, how to use the tester and the PC-Software and to optimize the work organization.
